

EDUCATION

PhD in Computer Science , <i>Columbia University</i> Advisor: Prof. Peter Allen, Thesis: <i>Learning Mobile Manipulation</i> <i>Army Research Lab Research Fellow</i>	Sep 2017 — May 2022
MPhil in Computer Science , <i>Columbia University</i>	Sep 2018 — July 2022
MS in Computer Science , <i>Columbia University</i> , 4.0 GPA <i>CA Fellowship</i>	Sep 2017 — May 2019 Sep 2016 — May 2017
BS in Computer Science , <i>Columbia University</i> , 3.7 GPA	Sep 2016 — Jan 2017
Marian High School <i>Class President</i> <i>Salutatorian</i> <i>National Honors Society</i>	Sep 2012 — May 2016 Oct 2010 — May 2012

TECHNICAL EXPERIENCE

Multiple View Performers for Shape Completion <i>Robotics at Google, Army Research Lab, Columbia University</i> <ul style="list-style-type: none">Researched novel deep learning approach for multiple view completion without registering viewsDeveloped a process to leverage Performer attention layers developed by Google to encode multiple reconstruction imagesWork submitted to ICRA 2023	Dec 2021 — Present <i>New York, NY</i>
Data Driven Strand Simulation <i>Columbia University</i> <ul style="list-style-type: none">Researched hair simulation algorithms to run in graph neural networks offering a 400% speedupDeveloped methods to compare python vs. C++ pytorch modelsIn submission to TOG (ACM Transaction on Graphics)	Dec 2021 — Present <i>New York, NY</i>
MineRL Basalt Competition <i>Neurips 2021</i> <ul style="list-style-type: none">Researched the intersection of engineered and learned knowledge to develop an autonomous Minecraft agent using human demonstration data and won first place at MineRL Basalt at Neurips 2021 in collaboration with ARL and UMBCResearched learned visual navigation methods and developed a CNN state classifier using human-labeled dataWork published at AAAI-Make 2022 and presented at Neurips 2021	Jul 2021 — Dec 2021 <i>New York, NY</i>
Mobile Manipulation Leveraging Multiple Views <i>Columbia Robotics Lab</i> <ul style="list-style-type: none">Researched deep learning approaches to mobile manipulation without localizing the robot at runtimeExplored novel simulation based techniques for generating data with real-world scanned environmentsImproved previous navigation work via predicted panoramic target goals from nearby environment reconstructionPublished to IROS 2022 and nominated for best paper in mobile manipulation	Jan 2020 — Oct 2022 <i>New York, NY</i>
Learning from Electromyography Synergies to Grasp Novel Objects by Superquadric Representation <i>Columbia Robotics Lab</i> <ul style="list-style-type: none">Collaborated with students to create a system for learning grasp synergies using a CTRL-Labs arm band and mapping the EMG signals to an anthropomorphic Seed robotic handHelped develop an algorithm for planning and executing grasps using superquadric representations of novel objects with successful real-world demonstrationsWork presented at Columbia Data Science Day 2019	Jun 2018 — May 2020 <i>New York, NY</i>
Learning Your Way Without Map or Compass: Panoramic Target Driven Visual Navigation <i>Columbia Robotics Lab</i> <ul style="list-style-type: none">Researched novel visual navigation methodology using RGBD panoramic target goals and behavioral cloningDeveloped a system architecture to embed images using an autoencoder and a policy model to control the robotExplored optimization strategies to develop training data from real-world environments without human interventionWork published to IROS 2020 and presented at NERC 2019	Jan 2018 — Sep 2019 <i>New York, NY</i>
Multi-Modal Geometric Learning for Grasping and Manipulation <i>Columbia Robotics Lab</i> <ul style="list-style-type: none">Incorporated tactile information to estimate shape geometry using vision and touch via deep learningCreated a novel machine learned model for estimating shape via multi-modal informationWork published to ICRA 2019 and to a RSS 2017 workshop	Sep 2017 — Sep 2019 <i>New York, NY</i>

Human Robot Interface for Assistive Grasping

Columbia Robotics Lab and CUMC

Jan 2017 — Dec 2018

New York, NY

- Created a novel interface for enabling robot control for spinal cord injury patients using an sEMG device
- Benchmarked the sEMG interface against other modalities including an Amazon Echo and a toggle switch
- Work presented at Columbia Data Science Day 2018

Research in Bit Width Resolution

Columbia University

Jan 2016 — Dec 2016

New York, NY

- Worked with Professor Stephen Edwards at Columbia University to add Z3's SMT framework to an existing compiler project in order to resolve variable bit widths at compile time

Research in Shape Completion

Columbia Robotics Lab

Sep 2016 — May 2017

New York, NY

- Worked with Professor Peter Allen in the Columbia Robotics Lab at Columbia University to optimize an existing platform utilizing CUDA
- Evaluated the ability to utilize a semantic pre-processor to identify objects in a scene to be completed using the existing tool

Research in Data Visualization

Columbia University

Sep 2015 — Dec 2015

New York, NY

- Worked with Professor John Kender at Columbia University to provide visualization of the correlation between visual and textual memes in online video data and provided an analysis on the most effective ways of visualizing co-clustered data

Research in the Production of Litecoin ASICs

Columbia University

Jan 2014 — May 2014

New York, NY

- Cooperated with Professor Simha Sethumadhavan on the feasibility of producing Litecoin Mining ASICs
- Independently designed all of the ASIC schematics, performed cost-benefit analysis of the ASIC and maintained knowledge on which crypto-currencies were most profitable at any time

Written Values Affirmation Intervention to Identify the Unique Linguistic Features of Stigmatized Groups

LIRSM

Sep 2014 — Jan 2015

New York, NY

- Responsible for developing web application in Node.js and Mongo to easily add and retrieve information from csv files
- Participated in IT work and assisted with sessions in informing individuals on using UNIX
- Developed strategies to acquire study data more efficiently and help audit costs on services

Walking in Their Shoes: Poverty in America

Yale

Sep 2014 — Jan 2015

New Haven, CT

- Developed interface and game for flexible assignment of agency to test subjects to explore the impact that games have on depictions of poverty
- Worked with MongoDB and Angular.js to create flexible tiled gameplay

PROFESSIONAL EXPERIENCE

Research Scientist

Boston Dynamics AI Institute

Dec 2022 — Present

Cambridge, MA

- Researching novel methodologies for robotics to enable the future of machine learning to solve the world's challenges

Co-Founder / Odefi Inc.

Columbia IBM Blockchain Accelerator

Mar 2019 — Present

New York, NY

- Created a startup company Odefi to deliver liquidity to the MakerDAO network by auto terminating expired contracts as part of the Columbia IBM Blockchain Accelerator in 2019
- Learned the lean launchpad startup process and pitched to several investors: <https://www.youtube.com/watch?v=kGa5QHL28FE>

Research Fellow

Army Research Lab

Sep 2018 — July 2022

Aberdeen, MD

- Participating in drone, robotic navigation, robotic grasping, and simulation research for the Army Research Lab
- Developing hardware acquisition and deployment strategies for research in ARL facilities

Engineering Intern

Goldman Sachs

Jun 2016 — Aug 2016

New York, NY

- Worked in Margin Technology to prioritize calculations using a graph DBMS and provided an interface to adjust the prioritizations
- Developed in Java and Angular.js to build both the database queries and the user experience

Engineering Intern

Goldman Sachs

May 2015 — Aug 2015

New York, NY

- Worked in Valuations Technology to rebuild an FVA Gating Tool which allowed Operations Users to give clients info statements
- Developed in Angular.js and Slickgrid to build a convenient user experience while collaborating with fellow interns

- Producing an ad campaign in Puerto Rico to promote a technical accelerator to help create jobs for graduated college students
- Coordinating with local government to leverage their expertise in publicity and existing infrastructure

AWARDS

Best Paper in Mobile Manipulation Finalist , Kyoto, Japan	Oct 2022
<i>Selected for my work titled Mobile Manipulation Leveraging Multiple Views submitted to IROS 2022</i>	
International House Member , New York, NY	Sep 2016 — May 2018
<i>Competitively selected scholars and young professionals from around the world who are challenged to become globally-minded leaders</i>	
CA Fellowship , Columbia University	Sep 2016 — Dec 2016
<i>MS students who have proven themselves to be exceptional will receive paid tuition and stipend</i>	
Goldman Sachs Code Golf Champion , New York, NY	Aug 2016
<i>Awarded for shortest possible source code that implements a certain algorithm</i>	
Dean's List , Columbia University	Spring 2013, Spring 2015, Spring 2016
<i>A list of students recognized for academic achievement during a semester by the dean of the college they attend</i>	
Residential Incubator Fellow , Columbia University	Sep 2012 — May 2014
<i>Students interested in entrepreneurship participating in a student incubator</i>	

ACTIVITIES

NSF GRFP Reviewer	2023
ICRA Paper Reviewer	2022
Computer Science Student Faculty Representative	2018 — 2020
IEEE RA-L Paper Reviewer	2021
IROS Paper Reviewer	2018, 2021
CoRL Paper Reviewer	2020

SKILLS

Languages	Python, C++, ROS, Tensorflow, PyTorch, CUDA, Javascript, Bash, \LaTeX , Markdown, Angular.js
Software	Gazebo, PyBullet, GraspIt!, MoveIt!, OpenCV, Blender, Windows, Ubuntu, Jetbrains, Git, Docker
Quantitative Research	Robotics, Machine Learning, Simulation, Grasping, Navigation, Graphics, GPUs, EMG
Communication	English, Spanish

VOLUNTEER WORK

Multisensory Reading Centers of Puerto Rico, San Juan, PR	Sep 2017 — Present
<i>Over 150 hours of volunteer service by performing IT help to provide access to effective literacy instruction for struggling readers</i>	
Watkins-Valls Family Foundation, Boston, MA	Sep 2013 — Present
<i>Providing scholarships and academic support to underprivileged students in Massachusetts, New York, and Puerto Rico</i>	
Pine St. Inn, Boston, MA	Dec 2010 — May 2012
<i>Over 25 hours of volunteer service at a soup kitchen for the homeless</i>	
Sisters of St. Joseph, Cambridge, MA	Dec 2010 — May 2012
<i>Over 25 hours of volunteer service through entertaining and assisting retired nuns</i>	

PRESENTATIONS

From One to Many: How to leverage multiple views in shape completion, Robotics at Google	Dec 2022
<i>A discussion on how to leverage multiple views for shape completion presented to researchers at Robotics at Google</i>	
Learning Mobile Manipulation, Harvard - Harvard Biorobotics Laboratory	Nov 2022
<i>Presented an abbreviated version of my thesis enabling mobile robots to manipulate objects to professor Robert Howe's lab</i>	
Learning Mobile Manipulation, Tufts - Human Robotics Interaction Laboratory	Nov 2022
<i>Presented an abbreviated version of my thesis enabling mobile robots to manipulate objects to professor Matthias Scheutz's lab</i>	
Learning Mobile Manipulation, MIT - Improbable AI Lab	Nov 2022
<i>Presented an abbreviated version of my thesis enabling mobile robots to manipulate objects to professor Pulkit Agrawal's lab</i>	
Learning Mobile Manipulation, Boston Dynamics	Nov 2022
<i>Presented an abbreviated version of my thesis enabling mobile robots to manipulate objects</i>	
Learning Mobile Manipulation, Boston Dynamics AI Institute	Nov 2022
<i>Presented a collection of works done during my Ph.D.</i>	
Learning Mobile Manipulation, MITRE	Nov 2022
<i>Presented an abbreviated version of my thesis enabling mobile robots to manipulate objects</i>	
Learning Mobile Manipulation, Rotor.ai	Oct 2022
<i>Presented an abbreviated version of my thesis enabling mobile robots to manipulate objects</i>	
Learning Mobile Manipulation, STR	Oct 2022
<i>Presented an abbreviated version of my thesis enabling mobile robots to manipulate objects</i>	
Mobile Manipulation Leveraging Multiple Views, IROS 2022	Oct 2022
<i>Presented work on localization free mobile manipulation that was nominated for best paper in mobile manipulation</i>	
P.h.D. Defense: Learning Mobile Manipulation, Columbia University	May 2022
<i>Presented my dissertation defense enabling mobile robots to manipulate objects</i>	
Minecraft Basalt Interview, Yannic Kilcher YT	Jan 2022
<i>Interviewed on recent first place win in Minecraft Basalt RL competition.</i>	
Learning Mobile Manipulation, ROAM Lab	Dec 2021
<i>Presented work done in preparation of defense of my thesis to the ROAM lab at Columbia University.</i>	
Learning Mobile Manipulation, CAIR Lab	Feb 2021
<i>Presented my thesis proposal to the CAIR lab at Columbia University.</i>	
IROS 2020: Learning Your Way Without Map or Compass, IROS 2020	Oct 2020
<i>Presented my Learning Your Way work at IROS 2020 via the online conference.</i>	
Demystifying the Dissertation, Columbia University	Jun 2020
<i>Presented my thesis proposal and help current graduate students understand the process of completing a PhD.</i>	
Thesis Proposal: Learning Mobile Manipulation, New York, NY	Jan 2020
<i>Presented and defended my thesis proposal in learning mobile manipulation in January 2020.</i>	
Research Talk, Harlem Children's Zone STEM Exposure	Nov 2019

<i>Shared my research as part of an initiative to help teach children in Harlem methods in STEM research.</i>	
Learning Your Way Talk , NYU Reading Group	Oct 2019
<i>Presented Learning Your Way work to the NYU robotics reading group.</i>	
Learning Your Way Talk , NERC 2019	Oct 2019
<i>Presented Learning Your Way work in front of audience of robotics researchers at NERC 2019 conference.</i>	
Visual Tactile Completion , Emptor Lightning Talks	Sep 2019
<i>Presented work on visual tactile grasping as well as next steps as part of Emptor's lightning talks.</i>	
Odefi Pitch , Columbia IBM Blockchain Accelerator Demo Day 2019	May 2019
<i>Enabling credit default swaps on the ethereum network pitched to investors at the capstone event for the Columbia IBM Blockchain Accelerator.</i>	
Visual Tactile Grasping , Samsung Research NYC	July 2019
<i>Presented work on visual tactile grasping as well as next steps.</i>	
Candidacy Exam: Simulation for Real World Robotics , New York, NY	May 2019
<i>A high-level overview of how real-world robotics can be enabled through simulation.</i>	
Using Simulation to Enable Generated Art and Robotics , Making Art in the Age of Algorithms	Dec 2018
<i>A high-level overview of how robotics can be enabled through simulation as part of a series of lightning talks about art and algorithms.</i>	
Visual Tactile Completion Poster , Data Science Day 2018	Mar 2018
<i>This work provides an architecture that incorporates depth and tactile information to create rich and accurate 3D models useful for robotic manipulation tasks presented at Data Science Day 2018 at Columbia University.</i>	
Lecture: ROS Tutorial , New York, NY	Jan 2018
<i>An introductory tutorial on ROS and use of robotics in the Columbia Robotics Lab to aspiring roboticists.</i>	
Providing Context to Startup Culture , New York, NY	May 2016
<i>An analysis on the effectiveness of a startup based on the type of culture it maintains as well as effects on profit/loss.</i>
